SPACING WAIVER / ALTERNATIVE SPACING REQUEST

FOR DISTRICT USE ONLY	
State/District Well No.: _____	Date Application Received: _____
Fee Received: $ _____ Paid By: _____	Date Received: _____
Date Approved: _____	Approved By: _____

Instructions: New wells must be spaced at least the greater of 50 feet or 1 foot per gpm of authorized maximum capacity from the property line (for a retail public utility well within its retail water service area, measured from the boundary of the utility's CCN, corporate boundaries, or other retail water service area), and 2 feet per gpm from existing wells, approved well sites, and proposed wells in the same aquifer (§ 6.101(a)). The District may grant a waiver if all owners of wells within the spacing-required circumference sign a waiver stating they do not object (§ 6.101(c)), or may authorize an alternative minimum distance between the proposed well and another well or well site if site-specific geological or hydrogeological information supports a finding that the proposed well location and use will not create any unreasonable impacts (§ 6.101(b)). For a well without an operating permit, maximum capacity is the rated capacity of the pump (§ 6.101(e)). To locate a well closer to a property line than required, the applicant must provide a waiver signed by the owner of each adjoining tract within that distance (§ 6.101(f)); a waiver does not authorize a location that violates TDLR Rules. The District may limit production from the well to minimize impacts. Submit with the well construction permit application or, for a well exempt from a well construction permit, with the well registration. A spacing exception fee may apply, except for a well described by § 7.009.

Part A. Applicant and Proposed Well

Applicant name: _____

Well Construction Permit Application No.: _____

Well Number / Name: _____

Well site physical (911) address: _____

County: _____ GPS Latitude: _____ Longitude: _____

Maximum capacity: _____ gpm Aquifer: _____

Required distance from property line: _____ ft. Proposed: _____ ft.

Required distance from wells in same aquifer: _____ ft. Proposed: _____ ft.

Type of request (check all that apply):

☐ Waiver by owners of wells within the spacing-required circumference (§ 6.101(c))

☐ Reduced distance to property line — waiver by each adjoining landowner within the required distance (§ 6.101(f))

☐ Alternative distance from other wells or well sites based on site-specific hydrogeologic information — attach (§ 6.101(b))

List all owners of wells within the spacing-required circumference and adjacent property owners: _____

_____

_____

Part B. Waiver and Statement of Non-Objection (one per owner; copy as needed)

I, _____, am the owner of (check one):

☐ the well located at _____ (Well/Registration No. _____)

☐ the property adjoining the applicant's property, located at _____

I have reviewed the proposed well location described in Part A. I do not object to the proposed well being located _____ feet from my ☐ well ☐ property line, and I waive any request for a hearing before the District Board on this spacing exception. I understand the District may limit production from the proposed well to minimize impacts to existing wells or the aquifer.

Signature of owner: _____ Date: _____

Printed name: _____ Telephone: _____

Mailing address: _____

STATE OF TEXAS §

COUNTY OF _____ §

Subscribed and sworn to before me on this _____ day of _____, 20_____.

_____ Notary Public, State of Texas (SEAL)

Part C. Applicant Signature

Applicant signature: _____ Date: _____

This request is filed as part of the Well Construction Permit Application identified in Part A and is attested under that application's sworn attestation (§§ 6.203(t), 9.104).
